

Value Series PDUs

By Orion Power Systems

Horizontal and Vertical Mount Power Distribution Units

Orion Power Systems Value Series PDUs provide a cost effective way to power your equipment rack.

Ideally suited for:

- Wiring closets
- 19" Equipment racks
- Telecom Applications

Features

- Horizontal mount provides compact installation and uses just 1U rack height
- Power indicator light
- Affordable heavy duty construction provides reliable power distribution to switches, servers, and other critical equipment
- 3 Year limited factory warranty
- All PDUs are UL listed

Model Selection Guide
